

SOP for ELETRACES

ELETRACES is an Android based GPS enabled mobile app to track the GPS location of the movement of the vehicle carrying EVM before poll day and on poll day. All Zonal Officers, Sector Officers and Presiding Officers involved in the Assam Assembly Election 2021 will have to use this app during transportation of EVM before poll day and on poll day.

1. Download the app from <https://hojaidev.github.io> and install it.
2. After installing, login using your registered mobile number.
3. After registration self-verification has to be done by verifying your details.
4. Authentication of user has to be done with one time password (OTP) sent to the registered mobile number.
5. Start tracking by writing purpose of tracking and then click on **START RECORDING** Button. This has to be done before getting on the vehicle carrying EVM.
6. Write remarks and then click on **STOP RECORDING** Button, if the job has been completed.
7. Click on **UPLOAD** button to upload the captured location.
8. End the task with **END** button (once the target location has been reached eg. Polling station. After pressing this button, location tracking will be stopped.)

Note: This app is only available for Android devices.
